

The following Terms govern the purchase of WeBump cryptographic tokens and apply to the use of any platforms created by WeBump. The terms and conditions presented are a binding contract between WeBump and the WeBump user, the token buyer. The document is not an invitation to invest and does not constitute an offer to buy any securities in any jurisdiction. The document describes the sale of WeBump tokens and the use of platforms that are part of this ecosystem.

If you do not accept the terms below, please do not purchase WeBump tokens. By purchasing WeBump tokens, you accept the following conditions, which means that these conditions will apply for you. If you have any questions, please contact us by email: contact@webump.io.

By purchasing WeBump tokens, you will not direct any claims against WeBump, or against former, current, or future employees or subcontractors.

It is not recommended to purchase WeBump tokens unless the buyer is an expert in handling crypto tokens and blockchain technology. Before making purchases of WeBump tokens, please read the terms and conditions listed below very carefully. If necessary, the issues should be consulted with a lawyer, accountant or tax specialist. If any of these terms are not or cannot be accepted, then you should not purchase WeBump Tokens.

WeBump tokens should only be purchased by persons, entities or enterprises that have appropriate experience in the use and knowledge to understand the complexities of cryptographic tokens and blockchain technology.

The purchaser of WeBump tokens should know the foundations of the functioning of the cryptographic tokens storage and transmission mechanisms. During the sales phases, WeBump is not responsible in any way for the loss of any tokens by users resulting from actions taken, omitted actions and errors. If you do not have sufficient knowledge or experience, you should not participate in the sale of WeBump tokens. By participating in the sale, you declare that you meet all the requirements listed in this paragraph.

1. The user cannot purchase WeBump tokens if the user is:

- a) A citizen, resident, or green card holder of the United States
- b) A citizen of a country where cryptocurrencies are prohibited by law

2. Each purchase of WeBump Tokens is the final purchase. WeBump Tokens purchased are not refundable.

3. The buyer is aware that the purchase of WeBump tokens is only his risk. The WeBump token is a token that offers no warranty of any kind, either expressed or implied. WeBump makes no warranty of its token's merchantability and fitness for any purpose. The WeBump team does not guarantee that the purchasing process will not be interrupted or error-free.

4. WeBump, unlike banking and financial institutions, WeBump is not insured. Therefore, in the event of losses suffered, there is no public or private insurer that is used by WeBump. No insurer is able to pay compensation in this case.

5. The private key or combination of private keys is necessary for controlling the project resources and storing the WeBump token. The loss of private keys may result in the loss of WeBump tokens. Additionally, it should be borne in mind that if private keys end up in the hands of third parties, such a person may usurp user tokens. Any errors or crashes related to the cryptocurrency wallet on which you choose to store your WeBump tokens may result in the loss of your WeBump tokens. The loss of

tokens may be affected by the buyer's failure to follow the exact procedures for purchasing tokens. As an example, you can enter the wrong wallet address or enter an address that does not match. Doing so may result in the loss of tokens.

6. Considering the fact that the WeBump token and all WeBump platforms are based on blockchain technology, all network failures, blockchain protocol used by WeBump may have a negative impact on the operation of our platforms and on Token WeBump. Please note that advances in the crypto industry or technical advances such as the development of quantum computers may have an impact on the security of WeBump tokens. The very usefulness of our tokens may also be at risk.

7. The risk associated with mining attacks and the risk of attacks carried out by validators should also be taken into account. Attacks are possible during the validation of WeBump Tokens transactions on the blockchain. Each successful attack is a very big danger for our platform and WeBump tokens.

8. Keep in mind that cryptocurrency projects are vulnerable to hacking attacks. Theft of funds belonging to a given project, application, bridge etc. is a very quick opportunity for a hacker to get rich. Hackers or other criminal groups may try to attack Webump platforms and the WeBump token.

When you buy WeBump tokens, you do it solely for your own risk.

WeBump investment risks:

1. The risk of losing access to WeBump tokens due to the loss of private keys, security errors or buyer error.

2. Risks related to the blockchain protocol. Bearing in mind the fact that the WeBump token and WeBump platforms use blockchain technology, any failure of the blockchain we use or abandonment of the blockchain protocol may have a significant impact on the functioning of the platform and the token itself. Additionally, one should bear in mind the risk that is brought by the development of technology, technical progress, e.g. the development of quantum computers. Innovative technology may pose a risk to the WeBump platform and our token.

3. Attempts to interfere with our platform and the WeBump token cannot be ruled out. Hackers or other groups acting to the detriment of projects and the entire cryptocurrency industry may try to break our security in various ways.

4. You should be aware of the risks associated with secondary trading of WeBump tokens. If the trading of WeBump tokens is organized by third party exchanges, such exchanges can be quite new entrants and there may be very little or no regulatory oversight on these exchanges. This state of affairs makes exchanges more vulnerable to any fraud and manipulation. Third parties will assign an external exchange value to WeBump tokens. The aforementioned external exchange value may be expressed, for example, in digital or fiat currency, it must be remembered that this value can be an extremely variable value.

5. WeBump tokens are not insured. The buyer can obtain a special private insurance on his own. In the event of loss of tokens or loss of value in use, WeBump does not have any insurer that can offer buyers of WeBump tokens any compensation.

6. The regulatory status of WeBump Tokens is unclear or unregulated in many jurisdictions. It is difficult to clearly define what the regulations are in relation to the technology used to create WeBump tokens and our platform. It is also very difficult to predict future legal changes and regulations regarding blockchain technology. Please be aware that any regulatory action you take may adversely affect the WeBump platform and tokens. The introduced regulation may have an impact on the cessation of the possibility of purchasing, selling, transmitting and trading WeBump tokens due to illegal activities. WeBump may discontinue its operations in a given jurisdiction in the event that legal regulations and changes in regulations appear that force us to do so. In such a situation, operating in that jurisdiction may no longer be allowed.

7. The regulatory status of WeBump Tokens is unclear or unregulated in many jurisdictions. It is difficult to clearly define what the regulations are in relation to the technology used to create WeBump tokens and our platform. It is also very difficult to predict future legal changes and regulations regarding blockchain technology. Please be aware that any regulatory action you take may adversely affect the WeBump platform and tokens. The introduced regulation may have an impact on the cessation of the possibility of purchasing, selling, transmitting and trading WeBump tokens due to illegal activities. WeBump may discontinue its operations in a given jurisdiction in the event that legal regulations and changes in regulations appear that force us to do so. In such a case, operating in that jurisdiction may no longer be authorized.

8. You need to be aware of the risks that competition may pose. Alternative platforms may also try to facilitate the same services as WeBump.

9. The WeBump token does not grant any rights to manage the WeBump platform or the project, any decision regarding the products or services provided within WeBump will be made at WeBump's sole discretion. The decisions made may have an adverse impact on the WeBump platform and the usability of WeBump tokens.
